## Note to *Cryptologic Quarterly* Readers

This is the second cumulative index of *Cryptologic Quarterly* articles. It is sorted three ways: by title of article, by author, and by keywords. Its purpose is twofold: to give readers a general view of the scope of subjects that appear in *Cryptologic Quarterly* – and thus to stimulate the writing of articles – and to provide our readership with a means to locate articles they may wish to use as general information on the job or as research tools for operational projects. We publish supplements annually.

We hope you find the index useful and that you will contact the *Quarterly* staff if you would like copies of an article. You may reach the office of *Cryptologic Quarterly* at 972-2895s or 301/688-6338b. If you send a written request for an article, address it to *Cryptologic Quarterly*, S542, SAB 2, Door 22.
